Dear Cancer Prevention Study Participant,

This year marks the 19th anniversary of your participation in the Cancer Prevention Study. As always, thank you for your continuing support of this research. Your careful responses to the questionnaires contribute to many scientific publications on important topics.

The attached very brief questionnaire asks only for the most important information necessary for continuing research. We have made it as short as possible in the hope that you will take a few minutes to complete the form.

In addition, please take a moment to verify that the information printed above is your full legal name and correct mailing address. We will use this information to identify cases of cancer through cancer registries and death indexes. As always, all information is kept strictly confidential and is used for medical statistical purposes only.

Please continue to be a part of this important research. Your prompt reply will help us provide answers to the many unresolved questions concerning lifestyle and cancer.

With many thanks,

Michael J. Thun, MD
Vice President
Epidemiology and Surveillance Research
